A Locality Interpretation Prepared for Madonna

INTRODUCTION

One thing is certain about you, no matter where you are -- you're one of the people who gets a lot out of life because you look beneath appearances and are willing to think for yourself, astrology being somewhat off the beaten track these days. So what is ASTRO*CARTO*GRAPHY*EXPLAINED? It's based on the common, instinctive idea that a person has different chances, luck, experiences or options in different localities -- that you aren't exactly the same person in New York that you are in Los Angeles. It works by looking at the planets' relationships to the places you've asked about at your birth moment. If a particular planet was especially powerful in the location noted when you were born, then the affairs that it symbolizes should predominate if you travel there, reside there or even have anything to do with that location from some other place.

Since 1976, when the now-standard ASTRO*CARTO*GRAPHY technique was introduced, wide acceptance by both the astrological community and the public has validated it. In addition, ASTRO*CARTO*GRAPHY has been able to benefit from the actual experiences of the thousands who have ordered its maps. The product of this experience is this new service.

WHY DO PEOPLE MOVE?

To understand how this information will be useful, perhaps we should question why people move around so much in the first place. In addition to the obvious reasons are psychological ones. Psychologists (Carl Jung especially) have suggested that people instinctively seek wholeness, or a completeness of their experience. If it's true that different locations accent different parts of your potentials, moving offers a way to speed evolution, to get acquainted with new parts of yourself. So if you find that a location you are obliged to reside at is one in which some of the more problematical influences predominate (such as Saturn, Neptune, etc.), you should look beneath the superficial and immediate desires and concerns of your life and try to understand what emerging consciousness has brought you here. Every location is good for something, and you would not be considering living in a difficult one for no reason. Also, don't get frightened if some of the interpretations sound extreme or perilous. Every planet has numerous possible manifestations, and, while we've tried to include them all here, rarely do the more extreme ones occur. The point in this report is to enable you to anticipate the nature of influences at your potential residence and so become able to recognize and utilize their most positive manifestations.

Different people are apt to react differently to the same astrological influence. You will feel more comfortable with what you already know, so certain planets will be easier for you to live under than others. For example, if you are a woman with traditional values, Mars and the Sun will possibly pose more problems for you than for a man, since the qualities and life experiences associated with these planets are not usually socially encouraged in women's upbringing. Similarly, men will find the Moon and Venus more challenging. People who tend to follow

external authorities and believe in society's order as unchallengeable may find themselves more at home under Jupiter and Saturn lines, and stressed by new experiences under Uranus, Neptune, and Pluto, while individualists and the more self-reliant will reverse these reactions.

You might find it useful to realize that, when faced with challenging astrological potentials, it is sometimes easy to "project" these onto your mate or partner, seeing the emerging parts of your own psyche as things THEY are doing. If your interpretations seem to fit your mate, realize that these things are happening because of possibilities in yourself that you aren't ready to face, and try to develop the positive sides of the astrological potentials described.

EVERY PLACE IS GOOD FOR SOMETHING

But the most important thing to realize is that every location is good for something; if you recognize and understand its potentials, you can use them constructively. You'll find that in some instances you don't even have to travel or live in the location -- that its influence affects you through people who come from there, or remote concerns, such as business, cultural or other life interests that symbolize those psychological potentials described by this report.

So here goes with the ASTRO*CARTO*GRAPHY*EXPLAINED analysis of the locations you're interested in. We hope it opens up for you opportunities to find what you're looking for in life; but we also hope it enables you to look beneath the surface, to see patterns in your own development and your instinctive growth toward wholeness.

London, UK

PERMANENT INFLUENCES

At the location which you have specified, there was more than one important influence at the time of your birth. Below we have identified the nature of these influences, and they will probably seem somewhat contradictory to you. Residing in a location where there is more than one important planetary influence is of itself somewhat stressful, and it is likely that one or more of the influences will be "projected"; that is, instead of acknowledging and assimilating the influence yourself, you will be inclined to seek other people, or external situations, to act it out for you. Nevertheless, you should attempt to comprehend all influences operating here, since it is only by inwardly accepting such power that you can gain control over it.

To understand the following influence, you should be aware that it is very strong; while reading the description of its psychological and particular manifestations below, keep in mind that you will be drawn into these types of activity almost beyond your will, and that residence here is probably a very significant chapter in your life, one that makes you aware, as never before, of the potentials that are embodied by the astrological effects operating here at your birth. If you do not feel that you wish to deal with these matters as a major part of your day-to-day life, perhaps you should consider residing elsewhere, or at least 300 miles east or west of this location, where the influence is apt to be more moderated.

Sun-Midheaven:

IF YOU'RE JUST VISITING, LOOK FOR FAMOUS PEOPLE

If you are just planning a short stay in this zone, expect lots of fun and an increase in your appetites and opportunities to indulge yourself in games, amusements, and glamour. Anyone travelling with you may find you a little overbearing, and your budget goes out the window as self-image improves, demanding more expensive and exotic clothes, surroundings, and people. Since you and everyone else think of you as a little more important and powerful, you're either treated like a celebrity or find yourself surrounded by them. For this reason this is an excellent zone for developing talents, particularly artistic ones. A great place for a vacation, but bring lots of money.

IF YOU PLAN TO LIVE HERE, EXPECT TO BE MORE IMPORTANT

This is your "celebrity" zone, where you express the influence of the astrological Sun. The universe seems an object to be acted on by your energy and will, and a masculine, egoic consciousness prevails. Functions of logic, inner motivation, and ordering are expanded. The drive toward self-actualization is powerful here; that is, life processes and will conspire to create an identity that is acutely aware of its own selfhood, an autonomous, outer-directed, and often extroverted "I am" that sees its own existence and function to be of prime importance in the

universe. Your direction is molded mostly by inner processes, less so by environment and social pressure, so you seem more free from past and future, existing as a unique, self-aware factor in the here and now. You expect others to pay attention to you here, and they do -- followed about like an important personage, you are treated often to others' generosity and identify strongly with your creations (including children). This is the best locale to sell or exhibit creative works -- writers may easily find a publisher here, and even the obscure take on a self-important and "movie star" charisma. If there are other planets' influences coupled with the Sun, you could become an extremely powerful, famous, or infamous symbol of the affairs governed by those other planets to your entire milieu, so try to understand carefully what they mean. By itself, the Sun demands a glittering, domineering, and perhaps overbearing style in life. Pride, glamour, and an appetite for the roar of the crowd may underlie and conceal inner incompleteness and self-rejection that demands others' approval as compensation.

HEROES COME IN ALL SIZES

In the early stages of Sun awareness, you may exhibit the boasting, arrogant self-importance and ostentation of the vain narcissist, or you may attract to yourself (or follow) others with these traits. A solar zone focuses consciousness on a battle with basic feelings of inferiority, and if you have never yet seen yourself in a "heroic" role, then here you will go through a deep, inner, preparatory struggle first, one in which you will painfully reject a childish, dependent, immature identity. A later stage of awareness of this planet's power (usually after the age of thirty) focuses on the Quest, or inner, mythic journey. This journey is at best the genuine quest to perform a deed or understand a personal mystery, the accomplishment of which will define an unchangeable foundation of selfhood and power. Pride is the catalyst of this change, and some of the confrontations engendered by youthful overpridefulness and a tendency to adopt pompous, officious roles (in an attempt to mask a wounded immaturity) later form the foundation of mature inner dignity and capacity to control your moods and feelings. In earlier stages, you may feel that fixing the kitchen faucet is a feat for which you deserve a Presidential Commendation, but this imperial myopia soon encounters reactions that broaden it to a universal appreciation of your own and others' deepest, immutable power and dignity. In maturity, the solar consciousness exhibits a glowing, fatherly leadership, a creative, self-fulfilled guiding light and energizing influence to all whom you affect, who will be many. Speaking with authority, hope, and humor, you develop self-assurance, loyalty, intelligence, and even fame.

CAN ANYONE REALLY BE A STAR?

Obviously, this type of "star-consciousness" does not work well for everyone, and if you are a person who is normally shy, retiring, and likes the background, this area may present you with these potentials in the form of inner struggles around love and self-image or in the persons of other people, some of them domineering and egocentric. Aquarians, Pisces and Virgo types may have more problems here than other people, but anyone has the energy to grow and develop the charisma and leadership that lies within, often doing so in a public context of some sort. You may act more like your Sun sign here.

Women are usually not educated to easily assume authority and power, so Sun zones like this one seem problematical at the beginning for you, unless you are already uncharacteristically self-assured. But in time, a tendency to attract domineering men to you will give way to the discovery of power within yourself, though you may resist it at first; events may befall you that

force you to accept leadership, when all eyes are on you, and, while at first it is unpleasant, you grow to like the role of "star" as you get used to it and its rewards. While another role-- "damsel in distress" -- works to attract shining knights, they soon leave you alone to seek a heroism within yourself.

IF AUTHORITIES PICK ON YOU, TRY BECOMING ONE

On a more practical level, this zone is one in which men often become fathers and where success as a self-made hero, an artist, or producer comes. Love is given, though seemingly not needed, and you will make things happen here, manipulate the environment, succeed in any business that demands presence, a public image, and powerful dignity. Authority is a key concept here, and there are dangers of insensitivity and overwork, especially for those who have not yet wholly integrated their mature identities. If you find yourself fascinated by movie stars, royalty, or powerful leaders, this shows you have not yet accepted your own "Sun" potential; this zone may then hold some critical and bittersweet lessons in this department. Pay particular attention to your thoughts and concerns with parents and authority, and be aware that disappointments in love and leadership concerns point the way to a truer sense of your own selfhood. Music and art may be important themes here, especially if Libra is strong in your horoscope, while a priestly role in religion may dominate if Cancer, Sagittarius or Pisces is powerful. This is a good area for health; rehabilitation may occur and vitality be restored. Awards, titles, and degrees are bestowed, as everyone agrees that you are "somebody," and inner spiritual experiences advance a deep sense of selfhood. Gambling, games, and amusements take on new importance, maybe professionally.

"WHAT IF I CAN'T STAY HERE?"

Powerful ASTRO*CARTO*GRAPHY lines can affect you even if you don't travel or reside under them. This part of the world, under your Sun line, is associated with your quest for selfhood, and you may relate to mythological or cultural images from this locale in a highly personal manner; moreover, people or other concerns that you associate with this locale can have transformative importance for your self-image and concept of identity.

The particular position that Sun occupied in this location at your birth will direct this type of energy and experience particularly into certain life areas; while the most important thing to understand is the underlying meaning and psychological principle, these are apt to manifest more obviously in specific life areas than in others.

"WHAT PEOPLE THINK" SPURS YOU TO NEW ACCOMPLISHMENTS

In this location, the general effects and concerns of the Sun specifically act themselves out in career ambitions and in the social arena. Inner processes are apt to be motivated by how you feel others see you in work and social spheres, and by how they react to your sense of public dignity and charisma. You are on an inner journey to prideful selfhood, urged on by an image of yourself as socially admired and appreciated, awarded, and praised in some enviable field. Because you expect to be, you are preferred in work situations, especially art, promotion, and performance vocations; working in an obscure, "ordinary," or anonymous profession is not likely to be tolerated unless you can figure some way to be a "star" to those around you. What people think

of you is overly important to you here, spurring you on to achieve higher social status, and while your sensitivity and pride motivate you to accomplishment, there is danger of too much concern with ostentation and appearances, which could interfere with joyful, spontaneous creativity and self-expression. Striving is rewarded with at least the trappings of success, and it is here that you could find fame, perhaps more than anyplace else.

But the danger is narcissism -- surrendering the true impulses of self-expression for empty acclaim and plastic celebrity status -- the big frog in the small pond. An addiction to hollow applause may conceal a low self-image disguised in royal costume, and you can try too hard to be all things to all people. Underlying self-actualization in this locale is your relationship with your father. This must be come to terms with, lest you become driven by fear that no one outside yourself will want to care for or protect you in time of need and that others' regard for you is superficial. After attempts at various disguises and social roles, you will continue to pursue your quest for complete self-discovery and mastery, and could even assume the role of guide and teacher-by-example to others seeking identities and deeper self-knowledge for themselves.

This location lies a little west of the precise planetary influence; therefore, of the possibilities listed above, those which seem most outer-oriented, yet personally relevant, are those which should be most apt to manifest. As suggested, the influence will act itself out in a social arena, as you find yourself thrust into situations where imposed leadership or responsibility requires you to develop the capacities and skills enumerated above. At first, of course, you are likely to be exposed to people and situations that command your attention (unwillingly, if these are concerns which you would deny having to deal with) and pose examples of how to assume the required authority and properly act it out, but quickly you'll be left on your own, immersed in challenges and situations that clearly require you to develop the skills and awarenesses mentioned above in a public and highly visible manner. If you feel the world is watching you, that's because it is, as your career or vocational position in society demands acceptance of and growth into the potentials enumerated above.

To understand the following influence, you should be aware that it is strong in this locality, though not overbearingly so. While reading the psychological description of its manifestation below, you should recognize the major theme that has operated for you (or will operate) here, though it may not be your prime concern at all times. You can ignore it for long periods, and this moderation of the influence tends to mitigate some of the more frightening and dangerous excesses that can occur. Probably, the more unusual manifestations won't happen to you, as this influence merges with others in your personality, creating a more balanced manifestation.

Uranus-Midheaven:

IF YOU'RE JUST VISITING, EXPECT SOME SURPRISES

If you're just planning a short stay in this zone, expect changes, unexpected events, and unusual people. Though you probably won't have much time, you could get caught up in some utopian social group here, and beneath the surface of your trip here is a desire to recognize and implement your idealism in some way. Your stay will be adventurous and interesting, though your companions may find you inflexible, intolerant of others' ideas, and somewhat inaccessible. It's hard to sleep, and your distraction renders you somewhat accident prone. Concerns with

technology, transportation, and media take unexpected turns.

STAYING HERE: LIVING OUT IDEALISM

In this zone, you are under the influence of Uranus, planet of electric change and transformation. Newly discovered (1784), this planet symbolizes fertilization of individuality, since prior to its discovery people defined themselves by their social function, positions in hierarchies, family, and nationality. With Uranus, social complexity has evolved to the point where ideas become important and, incidentally, governments have changed to rule through ideals and abstractions rather than through one individual's personal power. Residence in this zone, then, fertilizes your inner power and the conceptual framework of ideas that underlies it. Life and self are perceived with nonsentimental nakedness and, with few illusions, nothing is feared, except perhaps enchainment to the material, the monotonous, and the ordinary.

Diversity and democracy are admired as personal pride, charisma, and daring are enhanced; you develop a Promethean iconoclasm, constantly challenging accepted truths both within yourself and in your society at large, a predilection that usually does not endear you to its leaders. The emphasis on ideas, spirituality (as opposed to materiality), and anarchistic self-determination makes you somewhat intolerant, rebellious, and nonconforming, however, and coolness, unreliability, and aloofness often betray a deep selfishness disguised as idealism. Still, you see your way clear to do exactly as you please. Perpetually youthful and uncommitted, yet strongly principled and idealistic, you fit into no categories or social patterns, so must create your own. You usually conceptualize an enemy here, and while it may be the establishment, the Democrats, or some other entrenched force, it is probably actually your own attachment to the physical world and to the dark, earthy, primal forces of sexuality and materiality which intrude intolerably into your brilliant, airy visions and ideals. Materiality and the environment as a whole are identified with the commonplace and rebelled against with adolescent opinionation, but what you lack in practicality you make up for with charisma and ability to rally others to your causes. Your only identification may be with strongly anti-social groups or ideals. Society can act through you as well, identifying you, perhaps unwillingly, as the symbol of some idea, social force, minority opinion, or nationality. A dissatisfied soul on perpetual quest for impossible answers, you desire to raise others' consciousness, a task not often rewarded or appreciated. Magical coincidences are commonplace, and change is constant.

REBEL WITHOUT A CAUSE

The Greek god Uranus was a sky god, and his repulsion to earthy materiality was expressed in his intolerance of his own children, whom he confined to an underground hell. He symbolizes both the human capacity to transform the world through vision and idealism, and the cold, brutal intolerance of the pure ideologue, who, in the interests of his idealistic vision of the future, will destroy all those who get in his way. Uranus was rendered impotent, symbolizing the barrenness of pure spirit divorced completely from the material. Instead of children, Uranus has ideas, and these channel creative force into transforming social movements.

Earliest stages of Uranian awareness will of course see its problematical aspects dominate: adolescent rebel-without-a-cause superiority, intolerance, and rejection of any form of social cohesiveness will mask a computer-like coldness and anti-sentimentality. Militant action against the imagined enemy may be undertaken, or membership taken up in an anarchistic or radical

fringe group, whose purposes pretty much overcome the weak will and sense of individuality. A little more maturity sees recognition of the necessity to temper ideals with realism and compromise: technology is the result, in which ideas are put to practical use, hopefully with betterment of life as a result, though again the pure idealism of Uranus can here symbolize "pure" science of the sort that created the atomic bomb.

Finally, a humanistic maturity develops in the Uranian consciousness that demands opportunities for everyone to develop their fullest potential; humanitarianism, philanthropy, and technological improvement of the human condition can result, personified in the idealist who creates a society of self-determination and democratic principles.

At any of these stages, however, it is difficult to acknowledge the transforming power as your own; most people will become involved in a social movement, either by themselves (as scapegoats or reformers) or as group leaders. Ignorant of the source of power, it is easy to be manipulated by it and hard to keep such primeval and powerful forces in check. Experiencing the power of ideas when acted on by groups of humanity is the essential experience of this planetary energy and its zone.

CAN ANYONE CHANGE THE WORLD?

Uranus has two major types of manifestation: like a tornado, it can either blow you away to the Oz of a whole new consciousness or, if you try to resist its force, tear you to pieces. Obviously, people akin to its idealistic, cerebral, and nonemotional nature adjust more easily to its changes; strongly materialistic, conforming, social types, who depend on their possessions, stability, family, and other permanent life structures, may suffer most from its influence and find this locale the least congenial. If your eyes light up when you see hippies or punk rockers, if you are fascinated with astrology and New Age thought, if you're used to fighting City Hall (from either a zealously liberal or conservative point of view), then this zone will prove exhilarating, stimulating, and full of color, contrast, and excitement. On the other hand, if you like TV, belong to the mainstream, and count on your accomplishments as security, then this zone will probably be upsetting and uncomfortable, often in the extreme, with much of the security and possessions you rely on evaporating, leaving you naked and more aware in the world.

Many women don't take easily to Uranus zones, as they feel threatened by the lack of material security and continuity often present here. As an actual or potential mother, there is a bit too much change and upheaval to assure children with the routine and stability that they need. Health upsets, encounters with aggressive males, and family problems make this zone a little too exciting for you. The exception is, of course, strong feminists or others desirous of taking on the system and creating a new-model lifestyle. Often the first woman to achieve a certain, usually male, goal or to break ground in some other way does so in a Uranus zone.

PUTTING IDEALS TO WORK

In this zone, freshness and novelty are certain to prevail, but Uranus has innumerable manifestations. Its keynote is individualism and extremism, but within that there are as many expressions as there are individuals. Still, if you are bored with life and would give up anything for a change, you are in the right place here. You can become a new person, change your name, or redefine yourself and your individuality. Swift, unexpected liberation from the past patterns and habits occurs, and mediocrity and humdrum monotony are replaced with stormy excitement

and emancipation. Life is full of prismatic contrast and interest, full of exploration, adventure, and wanderlust. Things are done in extremes; there is delight in violation of bourgeois attitudes and morality as you forge your identity in contrast to prevailing social opinions. You seek a peer group as outrageous and "far out" as you are and an environment or communal living situation that supports expressions of your unusual ideas. The establishment thinks you dangerous, and your mere existence offends and threatens authorities of any kind, with predictable results. It's hard not to fight City Hall here, but you can win, at least in the long run, for your ideas, while heterodox, are ahead of your time and so the wave of the future.

Financial dealings fluctuate wildly here, being totally unpredictable, and this supports the general atmosphere of insecurity. You are forced to look within, as there is where painful growth occurs when unquestioned assumptions are discarded in the face of naked reality. Technology is one area into which this iconoclastic creativity can be positively directed, especially anything involving electronics or media. Astrology, New Age healing arts, and unusual therapies are also Uranian, as well as aeronautics, invention, labor relations, some community service positions, and radical politics.

Relationships in this area are apt to be tempestuous, as you attract willful and unusual persons. Occasionally, instead of acting out the intense, unpredictable influences of this zone, you repeatedly attract yourself to people who are themselves capricious and unstable. Health is rarely good in this zone, as your energy patterns are too erratic. It's hard to sleep, and nervous fatigue is likely. Accidents, especially affecting the legs, are frequent. Your self-concept and life will change here, and, though there is a feeling of loss as the past closes behind you, the excitement and stimulations of this zone, along with its promise of freedom from tradition and social coercion, agitate and animate you to activities you never dreamed possible. You become aware of cycles, cosmic consciousness, and transcendent possibilities.

WHERE ALL THOSE REVOLUTIONARIES COME FROM

Even if you cannot travel or reside in this exciting and colorful zone, it may come to stand in your mind for liberation, freedom, and change. People who have a profound effect and influence on your ideas may come from there, or a body of knowledge, religion, or teaching indigenous to this area might deeply change your world view and self-concept. You may take a stand against some injustice you perceive in this place, or support change and growth by financial or other means. Cultural interests here are apt to be intellectual and serve to illuminate future directions for your life path.

This, then, is the underlying psychological principle of the planetary influence operating for you in this location, and you should strive to understand the abstract as well as the particular manifestation of this energy as described above. However, due to the position Uranus held at birth at this location, it is apt to operate more in certain life areas than in others.

THE LONELINESS OF THE RUNNER IN CIRCLES

The position of Uranus at this location tends to stress your relationship with authorities and government or in your career. Social standing, status, power in society, and your vocation may change and fluctuate radically, and you could go from obscurity to fame (or infamy) and back

again. Persons' or institutions' supposed authority is ignored here, as you cast yourself into the role of the social rebel and rescuer, promising to save any and all from unfair oppression, getting their lives precariously and inextricably involved with your own. Everybody talks about you here, admires or hates you, and you cultivate something of a pompous messiah complex, figuring you have all the answers. No one is neutral, it seems, as you become the symbol of a cause, movement, or ideal or of your own ethnic or national background or its policies. There is a lot of power to reform or innovate politically, but you may get bogged down in the ramifications of what you have done, and personal ambition is eclipsed by the causes to which it has attached itself. You remain unaffected by the society whose changes you have catalyzed, and your life is a personal battle for ideals that always seem to get confused with others' need for liberation from unfair coercion and arbitrary power. Accepting personal responsibility for your society and its ills, you find yourself repeatedly contending for the underprivileged against entrenched power and authority. The "underprivileged" may often be you: a militant minority of one, seeking peers to support your battle, you're alone willing to take on Goliath if allies do not materialize.

The career areas mentioned above may be quite successful here, especially if your job requires innovation, creativity, and mental skill. Technology is of course indicated in this zone, but also any other occupation that has a future orientation, complexity, or radical artistic basis. The pioneer of a new idea at this location, you meet with the resistance of the status quo or organized authority. "Chutzpah" increases here, and you live spectacularly, unafraid of the consequences of all you stir up.

This location lies a little west of the precise planetary influence; therefore, of the possibilities listed above, those which seem most outer-oriented, yet personally relevant, are those which should be most apt to manifest. As suggested, the influence will act itself out in a social arena, as you find yourself thrust into situations where imposed leadership or responsibility requires you to develop the capacities and skills enumerated above. At first, of course, you are likely to be exposed to people and situations that command your attention (unwillingly, if these are concerns which you would deny having to deal with) and pose examples of how to assume the required authority and properly act it out, but quickly you'll be left on your own, immersed in challenges and situations that clearly require you to develop the skills and awarenesses mentioned above in a public and highly visible manner. If you feel the world is watching you, that's because it is, as your career or vocational position in society demands acceptance of and growth into the potentials enumerated above.

While the possibilities of how these influences might interact are limitless, the description below suggests some of the experiences you can expect.

Sun*Uranus:

IDEALISTS ARE ALWAYS RIGHT -- JUST ASK ONE

Never a dull moment in this location, as change, creativity, and individualism cause life to take on color and excitement, full of unexpected, unlooked-for successes and roller-coaster variability. The fundamental principles you are acting out here are social idealism and ideological "purity," implicit in which there is usually a rejection of the material -- a desire that ego and humanity exist in a world of pure ideal and rational, light-permeated understanding.

Though you act the opinionated radical and find that you are usually pitted against mainstream society in some just, though unpopular cause, such principled rebellion may well be motivated by a thinly disguised disgust for the material, for cloying emotional attachment, and for the acquisitive, unconscious religious and irrational aspects of humanity, which you see as primitive, mindless and frightening.

Impelled by these attitudes, you recruit and inspire others to organize under the banner of your ideals, and so may have noisy and profound effects upon your milieu. Abstract ideas get closely involved with identity, resulting in a divine discontent that spurs you on to experiment with the impossible and to urge society into tighter structures, which permit more specialized expression of individuality. Everyone will soon know who you are in this location, as you are a center of controversy: eccentric, charismatic, willful, arrogant, and independent. Your ideas (and the trouble they get you into) serve to brilliantly illustrate your own genius and individuality -- no searching for an identity here, though you won't get far without others who agree with you. Aspire to leadership of a purposefully Utopian, ideologically based movement, and go ahead and giggle at the emperor's new clothes.

Constancy is elusive, however, and fluctuating events demand a recognition of selfhood as a process rather than a definable entity. You take yourself a bit too seriously, reject attachments in an autocratic, impulsive, and rather inconsiderate fashion. Excellent timing enables you to enjoy a miraculous existence, complete with rewards that you probably don't want or care about. Words like "hippie" and "Bohemian" were coined to categorize the type of personality you embody here, and you cast your successes away after brief enjoyment, fearing attachment. The establishment knows there is something dangerous about you, but you change too fast for them to do much about it.

In addition to what has been explained above, you should understand that the latitude at which this location is found is a very important and potent one for you. A large number of subsidiary influences will confuse and complexify the issues set forth above, and relationships especially are under stress here. If you wish to preserve the indications set forth above, without the complexity of this latitude's influence, you might well consider moving 300 or 400 miles north or south of this location.

TEMPORARY INFLUENCES

In addition to the permanent, lifelong planetary influences described above, which affect the location you inquired about no matter when you reside there or deal with it, there are also important influences of a temporary nature. These operate strongly during the period about which you inquired (this year if you did not specify a time period).

Progressed Moon:

AN EMOTIONAL INTERLUDE

Progressed Moon to Natal Sun:

Residing here could mark a turning point in your acceptance of your nurturing, parental, and emotional potentials, especially at this time -- a period about three years long -- during which

you may find new and important relationships with dependent or younger people becoming central in your life. This in turn points to an acceptance and recognition of the importance and nature of your parents' influence on you, and acceptance and integration of many of your family characteristics, along with those associated with your ethnic background, birthplace, or any other body of personally relevant tradition. You will recognize your need for other people, explore fantasies, become more sensitive and willing to feel and experience life, and find women becoming more important in your life. You're willing to let go of rebellion in favor of more socially approved functions, as parenthood and other responsibilities make society, its support, and others' opinions more important to you. Security needs, erotic urges, and feelings of communality with people dominate awareness, as you accept your fundamental interdependence and attachment to others.

Transiting Neptune:

TIME TO "GO WITH THE FLOW"

Transiting Neptune to Natal Sun:

The period of time you designated for residence in this area is one in which its potentials are activated and modified by temporary influences, so that during this period, of about a year's duration, the emotional, security-seeking, and possessive instincts normally active in this area become more diffuse, nondirected, and other-worldly. Feelings are intense and unpredictable now, and family matters, home concerns, and hopes to establish personal security and nurturing structures in life feel threatened by emotional intrusions from the unconscious. Your sensitivity increases to an intensity that may be hard to handle (especially for men), so confusion and vacillation result in material concerns, relationship matters, and idealistic concerns. Your tendency is to unrestrained excitability and hypersensitivity to the unconscious, mysterious, and illogical aspects of life, so it's easy to get caught up in the moment or dominated by other people and their ideals. Habituation easily occurs, so drugs and alcohol could pose particular problems; on the positive side, you can intuit what others want and feel, enabling you to anticipate trends and fashions. Still, this is a particularly difficult period in a zone that tends to ups and downs anyway, and much of it could be spent in some sort of confinement, self-imposed or otherwise, in which you are forced to come to terms with feelings and attachments. Personal aspects of life and security are neglected in favor of an overdrawn, baroque world of fantasy and feeling, full of dragons, maidens in distress, and magic.

These, then, are the important astrological influences which affect this location, now and in the future. Needless to say, they all won't manifest the moment you arrive, but will indeed emerge as the most powerful psychological potentials over time.

EPILOGUE

This concludes our enumeration and description of the planetary influences, permanent and temporary, that affect the locations that you submitted. As you have observed, some of the information is psychological in nature, as it is the belief of ASTRO*CARTO*GRAPHY that

planets act, not through any mystical "power" or magic, but by paralleling potentials in the human psyche, and in orderly and comprehensible fashion, marking the development of this maturity. It is hoped that you are able in this way to see that there are really no "good" or "bad" locations for you -- that in the process of growing into mature completeness, you will have to experience every psychological possibility. At best, this report will work to inform you what these are for you in the locations you are considering, letting you know what to expect, and so empowering you to be able to utilize the most positive possibilities.
