## Life Progressions

We are born into an existing progression of change, through which we evolve and grow during our lifetime. Being conscious of our position in this succession of change helps us more clearly define and understand ourselves. An awareness of our current life situation relative to a larger, evolving chain of events helps us negotiate the challenges that confront us in our daily lives.

This Life Progression report (based on the technique of Secondary progressions) describes experiences and understandings relative to particular aspects, thus depicting the effect of these planetary aspects on an individual. The report covers a period of at least one year. The time period covered by the text varies according to the nature of the astrological event associated with each paragraph. A paragraph referring to a progressed Moon will cover a much shorter period than one referring to the zodiacal sign on a progressed house cusp. This report is intended to enhance the natal chart, not to replace it. The two go hand-in-hand. The progressed chart brings to fruition the promises of the natal chart.

<p style="text-align: center;"><b>Report for Johnny Depp</b> <b>Your Life Progressions for Apr 24, 2008</b></p>
---

### **Virgo on the First Cusp**

Diet, health foods, or vitamins enter into your vocabulary and take on new meanings. You may feel an urgency to change your eating habits because you feel uncomfortable in your snug-fitting clothes. Your immediate environment is also given close scrutiny, as you busy yourself with painting, fixing, and enhancing your home. It is possible that some of your work-related duties may undergo a change. You may be confronted with large amounts of detailed paperwork with your present company or perhaps through new employment. It appears, at this point in life, that you have the capacity to handle methodical tasks. This will prove to be an asset later, when details are required in assisting someone with work or health benefits. Co-workers may play an active role in your life. The affairs of an aunt or uncle may entwine with yours or you may assume the responsibility of a domestic pet. Minimize stress conditions, when possible, to avoid intestinal upsets. The condition of your progressed ascendant ruler, Mercury, can provide additional insight into new circumstances and motivational influences touching your life at this time.

### **Mars in the First House**

You're on a roll, with loads of energy to spare. You're feeling aggressive, independent, and eager to begin new projects. Just pace yourself a bit, so you don't antagonize others with abrupt and impulsive actions. There is initiative, with personal involvement in new ventures or undertakings. You are striving for independence and freedom of movement in everyday affairs. New ideas that offer exciting challenges appeal to you now. This placement reacts strongly on a personal level, where one is forced to take the lead in certain situations or activities. You may experience a noticeable lack of cooperation from others. Learn to handle tasks and arrive at decisions on your own. Exercise patience in driving, daily activities, and contact with others, as this planet can arouse the tendency toward carelessness, argumentativeness, and disputes. It is also associated with cuts, bruises, burns, migraine headaches, and accidents.

### **Mars Semisquare Neptune (Prg-Nat) May 12, 2008**

Disagreeable and chaotic conditions in your immediate environment can throw you off balance and leave you in a state of mental confusion. You will have to guard against unaccountable attractions toward situations or individuals involved with hidden or secret intrigues. Deceptive alliances or disreputable transactions can interfere with the normal flow of plans. This is not the time to undertake new projects or enter into business. Matters are not as they appear on the surface. Obscure sources of ill health can result through surrounding conditions. Check all areas for possible escape of gas, fumes or toxic material, and exercise caution around flammable fluids and gases. Avoid the abuse of drugs, alcoholic beverages, and prescribed medication. Women will have to be realistic with male relationships and realize that

some may not be as reliable or trustworthy as they would like.

### **Ascendant Square Sun (Prg-Nat) Apr 12, 2008**

You may be extremely sensitive during the next three years, and rejection of any kind can create a difficult ego problem. This is not the time to push career matters or enter into new undertakings. Nor is it suitable for asking favors of men in general, either a parent or boss. Safeguard your health by getting regular check-ups. Don't feel as though you have to do everything, even if you have trouble delegating jobs to others. Chest pains do not always indicate a heart problem; they could be a warning signal that you are under too much stress.

### **Libra on the Second Cusp**

Money gravitates more through the resources of others than through your personal action. The social and public side of life will also react upon personal finances. If used constructively, it is possible to make valuable contacts that will aid in increasing your income. Your productivity is greater when you are working in collaboration with others, rather than alone. Relying on another can assist in financial increase; however, a poor choice of business or marriage partner can bring reversals, resulting in heavy losses and worry. Beautiful surroundings and a comfortable existence will have greater appeal at this time.

### **Neptune in the Second House**

You'll have to remain on your toes and alert at all times where personal finances are concerned. Matters can get so confused, even when you are not at fault. Bank statements can get lost or computers go haywire, indicating insufficient funds and setting you off into a state of frenzy trying to prove you are not in error. Save all receipts, especially medical and hospital bills. Keep your pay stubs until the promised raise or bonus has been received, or the overtime paid. Being gullible at this time will not merit you financial gains. Hidden or unforeseen monetary rewards will surprise you -- a forgotten dividend check is received or a friend pays back an old loan. Whatever the case may be, you will experience this from time to time. For one reason or another, you may be tempted to have a secret savings account or hide money away that no one knows about. You will get more enjoyment out of your personal funds if you can afford a cottage by the lake, a trailer in the woods, or a small boat for fishing.

### **Scorpio on the Third Cusp**

Where circumstances warrant it, you will always come through with your persuasive charm and refinement of speech. But, something has happened or will soon occur that will alter your communicative style. A close encounter or experience with death, a sexual rejection, or a frustrating emotional impact may reveal a somewhat cynical attitude. You have the capacity to accomplish a great deal through sheer persistence and will-power. You have a fertile imagination and can be fond of secrets, the mysterious, and the occult. Letter writing, phone calls, and short trips may be required in connection with social security benefits, insurance settlements, alimony, income tax, and inheritance. During this trend, a secret matter is likely to surround the affairs of a brother or sister.

### **Sagittarius on the Fourth Cusp**

In all likelihood, one or both of the parents may do a lot of traveling, move to a distant city,

become an instructor, or write published material. Or, you may do loads of writing, studying, or storage of published material in your home. If married, you will probably have activities centered around your marriage partner's side of the family, rather than your own. Should incidents arise in connection with legal action and your property, don't sign any important documents without the advice of a competent attorney.

### **Capricorn on the Fifth Cusp**

Any of the practical arts would be a good outlet for a hobby at this time, most especially ceramics, earthenware, and pottery. Your free-spirited manner in the romance department is ebbing. Something has changed your attitude. You have become more reserved and cautious. There is an invisible, protective wall around your heart that no one can penetrate. It is apparent that you must be assured of their feelings before you openly express yours. You may be drawn to those who are older, mature, or of professional standing. You are highly ambitious for your children to succeed. As a result, you may overly concern yourself with their affairs. You worry too much about your credit rating to invest unwisely. Certificates that produce higher interest rates after a prolonged period are your safest bet.

### **Aquarius on the Sixth Cusp**

There is a strong love of independence in your field of vocation. You work best in a supervisory position or a person department where you are in charge. New equipment (such as computers, electronic typewriters, or machinery) can throw you off balance when you are suddenly faced with the prospect of having to learn the operation their operation. There is something different about your job that is out of the ordinary -- either you have a unique vocation, you work from the home, or your hours are scattered. A friend may play an important role in the employment department.

### **Saturn in the Sixth House**

Saturn's progression into your sixth house hints of heavy duties, responsibilities, and restrictions in relation to your vocation. It may curtail some of the enjoyable aspects of your job that an authority figure has undertaken to change or eliminate, while at the same time increasing laborious efforts through other means. Interesting enough, this placement does not withhold advancements. More than likely it can bring you a supervisory position that may create a reserved attitude from former co-workers. In some respect, there may be an isolated condition in which you may have to work in solitude and, at times, during the evening hours. This placement is favored for duties that require precise meticulous accuracy and thoroughness. Success comes through powers of concentration, industriousness, and completion of difficult tasks. A sound dietary and exercise program can aid the circulatory system and increase the energy level. Vitamins may help to prevent colds and strengthen the bony structure of the body. Older people or those of a serious Capricorn nature can be a source of help or hindrance.

### **Pisces on the Seventh Cusp**

During this trend you will come in contact with individuals who are mentally, emotionally, or physically handicapped. They will touch upon your life as they never have before. In close relationships, business partnerships, or potential marriage partners, you must guard against gullibility. Look beneath the surface before you become totally involved. Your marriage partner

may become interested in music lessons, photography, or creative arts.

### **Aries on the Eighth Cusp**

During this trend, you may have to resort to aggressive tactics in the settlement of financial claims from car or house insurance, sick benefits, or alimony. Or you may have to deal with past-due reminders for bills you have already paid. Your sexual desires are becoming quite passionate. It is easy for you to play the role of aggressor, but there are times when you would prefer your partner to take the lead in sexual encounters.

### **Jupiter in the Eighth House**

You may have a talent for organizing large-scale projects. If applied in a resourceful manner, this talent can have its advantages and prove rather lucky in joint financial business dealings. This placement provides a protective influence and possible monetary gain through dealings with insurance agents, the I.R.S., lawsuits, religion, and published material. In some cases your travel expenses may be paid by an organization or the company with whom you are employed. There is a greater scope for financial or material gains through the resources of others (a possible inheritance, insurance settlement, or a lucky win with the lottery).

### **Jupiter Quincunx Ascendant (Prg-Prg) Aug 15, 2009**

You tend to overestimate yourself and, in the process, take on more projects than you can adequately handle. Invariably your endeavors go unfinished and promises are broken, giving you the reputation of being somewhat undependable. Be wary of false friends -- those who try to use you to their own advantage. Conflicts are likely with people who may be opposed to your ideas. The desire to be of importance can lead to expanded views and extravagant tendencies. Blood disorders, liver complaints, or growth of tumors may be associated with this trend.

### **Taurus on the Ninth Cusp**

Pursuing higher education in fields of real estate, banking, or financing can prove profitable. It is quite possible that your travel expenses will be paid or covered by another party during this trend. Legal action is apt to surround conditions of personal funds -- collecting overdue back pay, commissions, or money someone owes you from a previous loan. In-laws or grandchildren can be a source of financial drain, if one is not careful.

### **Gemini on the Tenth Cusp**

Lecturing, teaching, and other communication skills sound intriguing at this time. You are getting bored and restless with your present vocation and want to add a new outlet. No doubt this will lead to the holding of several jobs at one time. At some point, you may have to take additional training or education to handle this new opportunity. Errands regarding a parent may consume quite a bit of your time.

### **Midheaven Conjunction Sun (Prg-Nat) Dec 23, 2009**

This influence is a forerunner of major changes in goals, career, or lifestyle. There is the possibility of public recognition. A male authoritative figure will play an important role in your life during the following three years. Depending upon your age, this may be a good time to take stock of vocational interests and make necessary changes to aid advancements. Sometimes births

and marriages take place within the family circle.

### **Cancer on the Eleventh Cusp**

Maternal or protective instincts will be very strong surrounding the affairs of your friends. You prefer small groups and intimate gatherings. Being sensitive to the needs of others may have you picking up the tab for friends in restaurants. An older female friend will play an important role in your life. Organizations or group activities may include involvement with foods. You are either planning luncheons or taking survival cooking classes. You will have a daughter- or son-in-law who will be very sensitive and resent criticism, no matter how well intended.

### **Sun in Leo**

Your progressed Sun has entered into the positive and outgoing sign of Leo. There is a dramatic flair that colors your mode of expression. You are becoming more ambitious, independent, and magnanimous. This tends to draw the admiration from others that you now crave. You may find that past restrictions or family responsibilities are lessening, providing you with more time to pursue personal goals, seek public recognition, and perhaps obtain a position of management or control over others. You are taking more pains with your appearance and style of dress. There is a deep sense of pride in personal accomplishments and a desire to bring them to the attention of others. There is a compelling air of self-confidence, a commanding nature and dignity that projects you as a person of authority. Through sheer will-power and persistency, you will be able to attain the success you so desire. Children, education, creativity, romance, and investments are highlighted. The men that enter your life at this time will be younger or act younger than their years. They will have an upright carriage, a regal bearing, dress well, and have preference for quality.

### **Sun in the Eleventh House**

You like to observe people, and you have good intuitive insight into their general makeup and character traits, possessing an uncanny knowledge of human nature. You have a revolutionary spirit, coupled with a strong dislike for personal restriction. New friends and associates of a prominent background will enter your life and may help you advance in your desired goal or aim. Involvements with clubs and organizations may place you in an important position of authority. You work well with groups of people or group-related activities. A male friend, step-child, or son-in-law may play an active role in your life.

### **Mercury in Leo**

Mercury governs the intellect. As it progresses into the sign of Leo, you will become more direct, confident, and positive in your thinking. Your organizing ability is enhanced, and you will have a greater scope for handling responsibilities. At times you will still be controlled by your emotions, especially when you are deeply hurt or rejected. But, your present affirmative attitude will not permit you to dwell too long on past hurts. There will be a noticeable dramatic flair and colorful expression to your manner of speaking. If you are not presently a teacher, you may be drawn into this new and exciting role, either assisting others to learn specific information or teaching them new techniques in their line of work. Children (your own or those of siblings or close ties) may play an important role in your life. Mental application may be directed toward the study of investment programs or new creative hobbies.

## **Mercury in the Eleventh House**

You have revolutionary and progressive ideas and an inventive mind, and you may have a talent for speaking. You prefer friends and associates of intellectual caliber, with whom you are able to exchange ideas and views. If you hold an officer's position with a club or organization, it is likely to be on the secretarial level -- keeping books or minutes of the meetings, handling the correspondences, and making necessary phone calls. You may attend seminars, conventions, or lectures for the opportunity to gain new insight and knowledge on various subjects. In one way or another this placement will bring you in touch with radio, television, CBs, technical equipment, or computers.

### **Mercury Conjunction Ascendant (Prg-Nat) Apr 23, 2008**

This influence increases personal contact with other people for the exchange of ideas and views. A very active and busy period in one's life, in which many diversified interests are likely to scatter the forces. Educational and intellectual interests will play a major role at this time. This trend often coincides with the beginning of a new school program or an interest in new studies. Communications, letter writing, and short trips may dominate much of your spare time. The affairs of brothers, sisters, or other close relatives are likely to have an effect upon your mental attitude.

### **Mercury Square Neptune (Prg-Prg) Jul 18, 2008**

This can be a distressing period in which the mind is obscured by vague, undetermined, and obsessive fears or phobias. Mental confusion, daydreaming, and absentmindedness may impair good judgment. Certain issues or situations become cloudy or mixed up to the point where you are unable to see things as they really are. Do not repeat unreliable gossips and rumors, or be coerced into divulging secrets to the wrong person. Be careful when signing important contracts or documents -- the fine print may contain distorted information. An illness, in connection with close relatives, may be difficult to define or detect.

### **Mercury Square Neptune (Prg-Nat) Oct 27, 2008**

This can be a distressing period in which the mind is obscured by vague, undetermined, and obsessive fears or phobias. Mental confusion, daydreaming, and absentmindedness may impair good judgment. Certain issues or situations become cloudy or mixed up to the point where you are unable to see things as they really are. Do not repeat unreliable gossips and rumors, or be coerced into divulging secrets to the wrong person. Be careful when signing important contracts or documents -- the fine print may contain distorted information. An illness, in connection with close relatives, may be difficult to define or detect.

### **Mercury Quincunx Moon (Prg-Nat) Jan 11, 2009**

This is a period in which mental independence in speaking and general correspondence is stressed. A good time to make plans for future study courses or learning new skills and techniques. During the next few months you may be kept rather busy providing services for others -- perhaps driving them to dental appointments or other such commitments.

### **Mercury Semisquare Mars (Prg-Prg) Jan 12, 2009**

There appears to be a high degree of increased nervous stimulation coupled with an

overactive mentality. You don't mean to be abrupt and cutting in your speech, but the impulsive nature of this tendency inclines you to act rashly, without due consideration for the feelings of others. You can fly off the handle in a burst of temper to innocent remarks made by others. This is not the best time for making important decisions, signing documents, or traveling. Use caution with personal and business affairs to avoid fraudulent circumstances. Make sure the brakes and other mechanical parts of your car are in good shape to avoid the possibility of accidents, and drive defensively.

### **Mercury Trine Jupiter (Prg-Nat) Feb 12, 2009**

You are mentally optimistic, hopeful, intuitive, and possessing of good, sound judgment. Now is the time to venture into new enterprises and undertakings. It is a good time to sign important papers and negotiate legal contracts. Pleasant news and messages may reach you from faraway places. Plan to attend lectures and seminars to expand your knowledge and gain expertise in your chosen field. Travel, published material, and lawsuits can prove beneficial now. This influence often produces new acquaintances or attachments of longer duration, sometimes leading to engagements or marriage. This is a good time to consider investments, speculation, and commercial enterprises. Individuals of foreign background, in-laws, or distant relatives can -- directly or indirectly -- be of beneficial gain or assistance.

### **Venus in Cancer**

As your progressed Venus enters into the sign of Cancer, it opens the door to exceptionally emotional and sensitive feelings. Attachments mean everything to you as your previous lighthearted attitude begins to wane. You are tired of flirtatious affairs. You are seeking a deeper commitment, a more steadfast relationship, no matter what the age gap. A deep sense of security may urge you to invest in property or beautify your present home to enhance its value. Sentimentality with family ties and parental devotion is strengthened. Older or mature women will be a source of financial or material gain or loss.

### **Venus in the Eleventh House**

Friendships, group activities, and social contacts are important to you. Any club or organization would benefit from your expertise as a public relations promoter or as a social director. However, if full cooperation is not forthcoming from other members, you may lose your interest in club work and drop out. You are well liked by friends and casual acquaintances, who may endow you with gifts or social invitations as a way of showing their high regard for you. Relationships with a step-child, a daughter-in-law, or with other women will play a prominent role in your life.

### **Leo on the Twelfth Cusp**

If you can accept the fact that you will never be "top banana," you are on the road to personal success according to your capacity. Romance can be a source of emotional hurt and betrayal because you -- forever seeking the ideal -- bypass someone who could have made you truly happy. Children can cause secret worries and emotional stress.

### **Moon in Virgo**

There are strong factors that could affect your employment picture. You may decide to

completely change your vocational interests -- or merely your present duties. Your heightened critical faculties may or may not offend others, who are likely to view you as being somewhat faultfinding. This is a good time for medical check-ups, the improvement of dietary programs, and taking vitamins, if needed. The affairs of aunts, uncles, co-workers, and the concerns of domestic pets will be activated at this time. Constant striving for perfection or attempting to do too many things can take its toll on the nervous system and react on the intestines. Note the house position of your progressed Moon to determine whom or what is apt to create this nervous tension.

### **Moon in the Twelfth House**

Prepare now for personal changes that will be taking place in a very short time. Work behind the scenes, quietly and diligently, gathering data and knowledge that will help you advance in both the business world and personal affairs. Avoid the tendency for clandestine relationships or dealings with individuals of questionable background. Confusing or complicated situations will require careful handling. You may be highly susceptible to your environmental conditions. Should you desire to escape the turmoil that surrounds you, seek positive means. Quiet hours of solitude and meditation can do wonders -- or lose yourself in a constructive hobby such as music lessons, cake decorating, painting, or model building. Avoid the temptation toward drug or alcohol abuse, and take only the medication prescribed by your physician. On occasion there will be hidden or unforeseen gains in return for favors rendered in the past. Your sympathetic nature may be aroused at this time, bringing you in touch with those who are afflicted or in need of compassion and understanding. This placement is associated with hospitals, institutions, and police activity. Note the sign position of your progressed Moon for more insight into these hidden matters.

### **Moon Sextile Neptune (Prg-Prg) Feb 14, 2008**

You may have accurate psychic impressions during this trend, which can pay off if you listen to them. Strange and prophetic dreams may try to relate a message while you are sleeping or meditating. It may be possible to develop the art of visualization -- seeing in your mind's eye what you hope to achieve in life, and then feeding the subconscious mind the picture as though you already achieved it. Unforeseen rewards may come your way, for favors you have generously given in the past.

**Moon Semisquare Sun** (Prg-Prg) May 11, 2008

Approximately three and one-half years ago, you may have undertaken a new start or direction in life. Some minor setback (an emotional crisis or other source of irritation) may have you wondering if you made the right decision. The emotions and your sense of pride may be hurt during this three-month trend, from rejection or what you may feel is undue criticism from others. This is a time to hold back and develop a "wait and see" attitude rather than push ahead against temporary prevailing obstacles.

**Moon Square Midheaven** (Prg-Prg) Jun 1, 2008

There is a possibility of undesirable changes in the domestic circle or through one's career. Emotional instability can push you into seeking an ultimatum from those you love the most. A new boss with whom you do not get along can cause emotional upsets. Affairs of grandparents or a parent may require your personal attention and concern. You may find yourself being drawn into the unpleasant task of resolving a family crisis. Parents can be quite demanding of your time and attention during this trend.

**Moon Square Sun** (Prg-Nat) Jul 12, 2008

This is a good time to get a medical check-up as a preventive measure. Guard yourself against any potential health risks, and encourage your immediate family and close ties to do the same. You may be somewhat sluggish, with lack of energy which tends to decrease your physical constitution and stamina. Consider a vacation during this period, for a well-deserved rest and a bit of relaxation. Get away from business or vocational duties that are less likely to be productive and beneficial. This is not a good time to begin new projects or undertake risky ventures. Tread carefully when dealing with close relationships. Aggravation with your job or lack of business acumen can easily spill over onto close ties, resulting in arguments and possible separation if pushed in the wrong direction. These three months can be a trying time, with low vitality and disappointments.

**Moon Conjunction Ascendant** (Prg-Prg) Jul 19, 2008

You may be required to take on an additional responsibility that could easily drain your energy -- perhaps working longer hours at your place of employment or having to care for an ill parent or other older member of the family. You should maintain an optimistic state of mind, and avoid complaining. Mental depression will only hinder future advancements and possibly have an affect upon your health.

**Moon Sextile Venus** (Prg-Prg) Oct 19, 2008

Unless other conditions are prevailing in your life, this should be a happy, relaxed, and successful period -- one in which you should take advantage of all opportunities for social advancements. Do what you can to make yourself available for new contacts that can lead to successful linking of associations. Emotions and feelings are stirred, adding new zest to the marriage state or drawing attention from the opposite sex, if single. A general improvement of financial success, receiving of social invitations, flowers, or gifts is indicated.

**Moon Trine Mercury** (Prg-Nat) Feb 9, 2009

Your mental energy is stimulated and flows with a positive influence. It should be easy at this time to learn and grasp more knowledge than usual -- to undertake, and pass, driving or written tests. This is a fortunate and successful period for all mental applications. Excellent for writing, handling of correspondence, and negotiations -- buying or selling of property and real estate. Be alert for new business opportunities. Favorable trends for traveling, and for affairs of siblings and other close relationships.

**Moon Trine Venus** (Prg-Nat) Mar 5, 2009

Unless other conditions are prevailing in your life, this should be one of the best periods for financial success and social advancements. Your feelings and emotions are aroused and will find a satisfactory outlet through present or new attachments. Should situations permit, this may be the time for engagements or marriage. Social functions, invitations, and receiving of flowers or gifts are highlighted. One may also look forward to a prosperous time for finances or investments. While these opportunities may present themselves, it will be up to you to take the initiative and promote these activities into action.

**Moon Semisquare Ascendant (Prg-Nat) Apr 14, 2009**

Emotional and domestic difficulties, especially where women are concerned. They are likely to be a source of irritation or interference with personal plans. This could result in a break-up of close emotional ties -- perhaps a separation from a loved one or parent. If running for public office, it would be wise to seek the counsel of someone experienced in public relations. Your own image will not project as well as you would prefer. A PR person can help to smooth the rough edges.

**Moon Semisquare Neptune (Prg-Prg) Apr 27, 2009**

You may be quite vulnerable and gullible during this trend. You may be an easy prey for those who wish to take advantage of you. Be on guard against possible deception and fraud when forming new friendships and close attachments. Avoid situations with the opposite sex that hint of secrecy or hidden intrigue. There will be an additional flow of physical and mental energy during the next three months. Be aware of this tendency, so that you can exercise caution and yet accomplish much by carefully directing this energetic activity toward the handling of difficult tasks. Find a constructive outlet, and yet at the same time be constantly aware that accidents can lurk around the corner. Use caution in all matters, especially in travels. This is not the time for rash actions and impulsive behavior that you may later regret. Avoid hasty or careless decisions, losing your temper, and going to extremes. Caution, moderation, and tolerance can help to prevent abrupt speech and serious quarrels. See your physician if fevers or infections persist.

**Moon Semisquare Mercury (Prg-Prg) Jun 17, 2009**

Your mind is not as alert as it should be, nor are you thinking in logical terms. Give careful consideration to what you say or put in writing. Faulty judgment can place you under heavy burdens or obligations, so it is best to sign nothing of importance during these three months. Avoid possible disputes or misunderstandings with relatives. It may be unwise to travel or consider the purchase of a car. In general terms, you should ignore idle gossip, confide in no one, and be your own counsel.

### **Moon Sextile Sun (Prg-Prg) Aug 31, 2009**

You are in a positive state of mind, filled with optimism and a hopeful outlook. Your inspirational attitude is likely to draw admiration from others and increase your chances for social contacts, business advancement, or a new romance. Take advantage of all opportunities and channel them into constructive possibilities. You are on a roll, and should make the most of these three opportune months.

### **Moon Sesquiquadrate Saturn (Prg-Prg) Dec 26, 2009**

You can make great strides during the next three months if you concentrate on projects that are difficult to handle and require an isolated condition from which to operate. Affairs connected with finances or business matters will be rather depressing. You are likely to brood or worry over delays in personal affairs. This is not the best time to ask favors of bosses, parents, or older individuals, or for beginning new projects. Your system may be sluggish, so get plenty of rest to renew your lowered vitality during this trend.

### **Uranus in the Twelfth House**

Unforeseen circumstances or situations may restrict you from forming close ties with friends or taking an active role in any club or organization. Perhaps it is your job or responsibility with young children that is turning you into a loner, creating a sort of isolated condition. For those who are active with associations, you may feel as though your hard work and volunteer efforts are going unnoticed and unappreciated. After a while, you may lessen your activities and take a passive role. From time to time, you may receive unexpected good fortune from forgotten or hidden issues, or unexpected gifts from friends who want to repay you for past favors. Treat some of your friends with "kid gloves," for they may turn into secret enemies. This placement is associated with sudden and unexpected trips to the hospital with a member of the family.

### **Pluto in the Twelfth House**

There will be a strong desire to work in secrecy, do research, or study subjects of a mysterious nature. There is an inclination to delve into the supernatural and unusual phenomena. Mysticism, yoga, and mind control are just a few of the topics that may hold your interest. This is also a period that calls for intense internal readjustment. You may be required to rid yourself of old and useless items and ideas. A school, college, the armed forces, or an institution may be involved with your transformation. You will learn to suppress or overcome your fears, change or alter some physical aspect of your body or style of dress, and rid yourself of bad habits. Guard against gullibility where joint finances are concerned. This is not the time to co-sign for monetary concerns involving others. Whatever you loan out, materially or financially, is not likely to be repaid or returned.
