The Composite Chart is a Blueprint that represents a symbolic meeting place of your shared mental, physical, emotional and spiritual chemistry.

Have you wondered why the two of you find it easier to agree on some topics and experience distance when trying to discuss others? This report will likely touch on some areas where you might need insight.

There are no perfect relationships. We can strive to make our interactions with others more productive and meaningful. The pages that follow will describe places of harmony in your relationship. Perhaps this report will inspire the two of you to find ways to mentally stay on the same page. Communication is so vital in clearly relating to each other.

Romantic love is a powerful belief system in modern day society. Some people have even compared it to a religion. Our faith goes out to another person. Romance charges a relationship with more emotional intensity than any other type of partnership. Many of our hopes and dreams are invested in finding a soul mate.

We seek happiness in a lover. How can such a simple thing get so complicated? It's that each of us has our own definition of happiness.

This report could create new options. Relax. It is not intended to judge either of you. Pause if something makes you take a deep look at yourself or your partner. Each of us is really a student of life when it comes to relationships. Learning how to communicate and to truly hear the mind and heart of another person is a life long quest. Remember that you are not alone when it comes to understanding how to better handle your human relations.

Happy Navigating!

## **The Players: The 10 Planets**

### **Part One: The Lead Roles**

#### **The Sun**

The Sun is the center of our solar system. It generously shares its radiance with the other planets. In Astrology, the Sun is the heart of the chart. It points to ways that your relationship needs to confidently shine. Keep the fires of your Sun burning brightly and proudly together. Love will follow. Happiness will fill your minds, bodies and souls. The Sun stands for ego needs, will power and creative vitality.

Forget your own Sun signs for the moment, David and Victoria.

Your shared Sun sign could be different than your individual Sun signs. Remember that we are talking about your combined Sun. It is the fusion of your two hearts.

#### **Sun in Taurus**

A Sign is a psychological process through which a planet operates. As a couple, being solarized through the sign Taurus paints your relationship with a desire to seek earthly pleasures and treasures. Seeking comfort is probably a mutual desire. You can establish an alliance colored with a love accentuated with a natural closeness. The keyword phrase for Taurus in traditional astrology is "I have." There is a promise of making key acquisitions together.

A desire to give to each other generously can stimulate trust. A show of affection and genuine caring will encourage a mutual sense of support for each other. A shared sense of emotional and physical wealth makes mutual trust possible. Each of you needs to have some degree of control over the finances. This will probably help maintain the peace. Money can be a touchy issue.

Show an appreciation for what is most valuable to each other. Allowing one another to feel valued fosters an enjoyable bond. Bathe in experiences that make both of you feel successful. Encourage your partner to travel on the highways of life that offer creative fulfillment. Trying new experiences is good for you as individuals and as a couple. A life with little leisure can disrupt the natural flow of your relationship. Though too much time in a slow lane offering little stimulation, can lead to a lost sense of closeness.

Enjoy being together but don't try to own each other! You need not desert your personal goals. The more at ease you are as individuals, the richer is your time together.

Learn when it is best to be stubbornly determined, and when to flow with a new course of action. Respond to your partner's need for change. Tune into the special ways each of you needs to feel loved. Share your experiences of art, music and sunrises. Worry not if each of you needs some time alone to pursue your own interests.

Your creative vitality will lead you to flow with the rhythm of your relationship. There is a sensual passion that naturally emanates in your liaison. Honor the need for individual

expressions of work, beauty or self-actualization. Life will then reward you both--honest!

### **Sun in the Eleventh House**

Freedom, friendship and future goals are highlighted in a big way. You inspire each other to bravely move in new directions. Your relationship tends to be goal-oriented. Riding unpredictable waves of change can simultaneously scare and thrill you. Living for the moment is more exciting to the two of you than worrying about the past. You can show an inventive streak that points the way to keeping your love refreshed. Unconventional sparks fly frequently from your minds.

Peers are stimulating to your lives. People can find you to be full of surprising ideas. Unique individual goals may bring shared excitement. Your ability to work together in unusual ways might be enjoyable. A loyal friendship could be at the root of your relationship.

Mutual respect for independence encourages closeness. Both of you have a talent for bringing new life to groups or individuals. This is a partnership that helps to brainstorm alternative ideas. Each of you can enjoy following new trends. There is no real eagerness to follow in the footsteps of others.

Too much aloofness can hide emotions. A preoccupation with self-absorbed thoughts causes distance. Living exclusively in anticipation of the future can cause a disoriented present.

Support for each other's goals keeps you communicating. Share your visions of the future. Don't always walk alone in your own head. Allow each other to voice opinions. Look for new creative options to old problems. Support the freedom needs of one another, and you will have a friend forever!

### **The Moon**

Countless song lyrics, poems and lofty dreams have been inspired through gazing at the Moon. The Moon's sign and house position represents the intimacy and feelings you share with each other. Establishing a sense of security and a home are other lunar sides of life. The Moon symbolizes the imagination you share from your inner landscapes.

### **Moon in Aquarius**

With your relationship lunarized through the sign Aquarius, you share a fondness for unconventionality. There aren't too many things in this world that will shock either of you. Surprise is something you thrive on. There is an inventive quality that runs through your togetherness. People can experience electricity buzzing between you.

An innate sense of the future can stimulate you into exciting directions. The intimacy between you can provide the foundation of a wonderful friendship. Equality allows you to naturally deepen your mutual understanding.

Your mental alignments lead to experimentation. Your partnership could easily feature a trend-setting tone. Friends, peers or loved ones could be motivated to new inventive thinking. Your relationship probably attracts unusual people and situations.

The home could have a unique beat to it! Visitors with progressive insights may frequent it. Groups may enjoy meeting at your house. There is a likelihood of having numerous types of the

newest communication technologies at your disposal. Staying in touch with the world through E-mail is not hard to predict. You each need to feel completely free to be yourselves around the house.

You might display a great capacity to adjust to each other's moods. A need for closeness and distance is indicated. Doesn't this sound like a difficult challenge? You will need to talk this dimension of your relationship through carefully. You can balance these two tendencies in your everyday relating with one another.

Aloofness! It might cause a deep wrinkle in your caring for one another. Find a happy medium between your emotional and mental sides. Communicate to each other's heart as much as the mind. Support each other's future goals and you just might have a friend forever!

Let your imaginations guide you to walk with a spirit of autonomy, and yet find areas where the farthest reaches of your worlds can meet. Embracing the closeness found in the present may be wiser than pinning all of your hopes for the promise of the future--though it's hard not to look ahead!

### **Moon in the Eighth House**

There is a capacity to travel to the deepest recesses of each other's thoughts. The bond between you deepens quickly, as though it was already there. Believing in the good intentions of each other is needed. Don't betray this trust, and you can have a passionate love together.

You can wound each other's pride with sharp, precision-like negative comments. You can repair the damage just that fast with showing you are sorry. Forgiveness is a key ingredient in your partnership as it keeps leading you back to calmer ground. It doesn't take much for you to bring out emotional intensity in one another--does it? Don't fear getting angry at the behaviors you don't like. It is therapeutic and is it predictable that it will occur. It's better to express yourselves in the moment than let it erupt later like a hot volcano.

Loyalty is sacred in your eyes. You need to know you have an ocean of security in your being together. You are lovers, friends and allies. There is no better person to see you through the tough times and to celebrate the highs. Don't run away from the shadows you awaken from your partner's past. Your relationship flushes out everything that needs to be faced, whether it is a tendency to be jealous or manipulate. Your love for each other will be strong, if together for one month, or a lifetime. You naturally remind each other to appreciate the gift of the present.

Let your intuition guide you to find the harmony in your emotional depths. Help each other find the road to their greatest sense of personal power, and you have done much to stabilize your togetherness.

### **The Ascendant**

We are taking a short intermission from the planets to introduce you to an additional key part of your relationship. The Ascendant or Rising Sign is the sign that starts the 1st house of the chart. The Ascendant is one of the twelve signs with a special role serving as an ambassador. It acts as a persona or mask for an individual or a relationship. The Ascendant is the personality through which we interact with the world.

The Ascendant is the way we appear to others. It is their first impressions of us. You meet

someone and he or she seems to be confident, shy, talkative, cheerful, etc. The same can be said for a couple. The two people might seem theatrical, dreamy, or businesslike.

### **Ascendant in Cancer**

People might see the two of you as homey or nurturing. Your caring tendencies can make others feel accepted and valued. Closeness or loyalty is in your faces. You can move swiftly when it comes to making your lives more secure. Moods are predictable. They can be pointing to issues that need your attention. Privacy is your way of processing emotions and information. Some individuals will find you a hard-to-get-to-know pair. Other will delight in the way you support them. Home and family can be a key topic of interest.

### **The Part of Fortune**

Your Sun, Moon and Ascendant can be combined or blended into a cosmic alchemy, known as the Part of Fortune. This is not a planet, but rather a reference point in the chart. The Arabian astrologers of the Middle Ages are given credit for its discovery. The Part of Fortune is said to show where we can expect to find good fortune and even luck. Do we really need to take a look at something from the long ago past, if it will serve as nothing more than a relic to hang on the wall? A translation of this ancient symbol into modern terms makes this symbol worth investigating. Why? Because it can give clues to special paths that lead to harmony and a spirit of feeling united.

Think of the Part of Fortune as the potential corridor leading to Opportunity. It is a way to read the pulse rate of the partnership, indicating ways to reach a shared sense of fulfillment.

### **Part of Fortune in Aries**

Striking out in search of new worlds to explore fires up your passion. Waiting is not easy for you to do. Each of you can entice the other to follow an impulse to leap first and worry later. It is when leaving your comfort zones behind that fate or good fortune smiles down upon you. You are happier when feeling like doers, rather than watchers. Encourage your partner to pursue the directions that are the most energizing. You both function at your best when anticipating that tomorrow will bring a new horizon.

Inspiration that flows between two people can be traced to our good-natured friend in the sky.

### **Jupiter in Pisces**

You seek inspiration through the stuff that weaves dreams. There is a tremendous vision of hope and faith that you bring to one another. Go slow. ### **Saturn**

Astronomers say that if Saturn fell from the sky it is light enough to float on an ocean. Some people dread hearing about where Saturn is in their chart more than they do going to the dentist! The fortune tellers of old always painted this planet with "heavy" interpretations. They presented this planet as being a god of doom and gloom. In modern astrology, this motif denotes endurance and ambition. In mythology, Saturn was Chronos, the god of time, reflecting the wisdom that can be learned from past experiences. You could say Saturn is a "Cosmic Chiropractor", showing adjustments needing to be made along life's way. There can be frustration in repeating the same mistakes. Saturn's sign and house themes are associated with Commitment and Reality-Testing. The two of you may find clues here about how you define your relationship roles. Career drive is a Saturn hallmark. Saturn shadows are fear, rigidity and a need to be compulsively controlling. There is no longevity without partners dealing with the symbolism of this particular celestial wanderer. With a lot of practice and patience the two of you can get good in making this side of your relationship flow--honest! Saturn can become more a god of Success!

## **Saturn in Cancer**

So you don't always show your ambitious sides openly. Each of you usually knows what the other wants to be in life, even if you don't share this with the rest of us. You are a tight-lipped couple about your major plans. People respect the way you quietly carry out your objectives. Your commitment to each other is based on loyalty. When you make one another feel secure there is no chance time will lead you to go your own ways. Home and family have a mutual definition for you both. You both thrive on having someone, or something, to take care of in life. People will tend to lean on your partnership for support. Watch how much of yourselves you give. Be fair in leaning on your partner. You are a strong couple when you decide to put a strategy into motion. Your perseverance may wane at times, but somehow you finish what you start, more often than not.

Remembering anniversaries and birthdays is a must. Making time just for the two of you preserves your closeness. Treat with reverence what each other values as special and you will have a lover you can count on in any season.

Don't run away from your differences. It will only mean it will take longer to talk through emotionally hot issues. Learn to listen and talk with each other. It makes you that much more passionate toward your partner!

## **Saturn in the First House**

You are a "nose to the grindstone" duo when it comes to putting a plan into motion. The world will take notice of your solid ambition. Your presence is not taken lightly by others. Business impulses can be right on the money. You are a catalyst for one another to make bold decisions.

Bossiness will not bring you closer together. You are wise to give each other the leeway to determine personal paths to self-importance. This is probably an ambitious relationship. Busy schedules are highly predictable. Manage your time in such a way neither of you suffers burnout.

Communication helps you see each other's perspective more clearly. When you don't talk, there might be more of a stalemate, with no winner. Negotiate directly. You do better to argue than hide your hurts. Talk from the heart as well as the head. You often want the same thing but may need time to be able to express it. People may find you a serious couple that somehow manages to make life fun.

## **Uranus**

Try to visualize a maverick planet orbiting on its side, whereas the other planets sit straight up and down. Uranus! This planet was discovered in the eighteenth century, sandwiched in between the American and French Revolutions. Is it any great wonder that this planet's sign and house occupations show our individuality and innovative ideas? Experimentation. Inventiveness. These are two more themes of this exciting and trend-setting entity. What is the down side to this

rebel? A tendency in exhibiting a sarcastic tongue in your everyday communication. Launching sudden irresponsible actions will not make you feel like friends. Uranus can be the source of enjoying the refreshing insights you bring to your partnership. Treat each other as equals and you are likely responding to a positive tendency embedded in this planet's symbolism.

### **Uranus in Libra**

The two of you enjoy meeting people from many different backgrounds. Your social connections are as wide as the Grand Canyon. Perhaps you met through someone that knew the two of you. Your closest contacts can be very adept in the arts.

Your social interactions are stimulating. They may even create financial opportunities for you. You are a couple with ideas that get others to take notice. Making your joint plans materialize will require bargaining with one another. You will not always see eye-to-eye on how to attain what you want. Indecision will result if you fail to act. The timing of your moving ahead with a goal improves with communication.

Surprising each other with parties and romantic getaways does wonders for your hearts. Your tastes in style and entertainment may be interesting topics of conversation. You might be amused by each other's observations about societal traditions and customs.

Your romance could easily have gotten off to a whirlwind start. A fascination with each other physically and mentally is likely, right from the start.

Patience might not be the strong point in your relationship. You are a forceful combination when you put your ideas into motion. A tug-of-war can occur due to the momentum each of you induces in the other. It is when you suddenly pull in personal directions in mid-stream that friction can be felt. How do you handle this? You need to listen to each other's defense of their position. Finding a win-win solution is not simple, but well worth the time. This is better than the endless fighting over who is right.

You both can excel in championing your ideas. An inventive hot zone is embedded in your shared chemistry together. You can soar to new heights with this electricity. Business ventures can be a source of excitement. Think things through before committing most of your resources to something. Use each other as a sounding board to get clear about a decision.

You have met an excellent romantic match. Many moments of surprise and elation are continuously in store. Make room for the goals that call to both of your hearts and you will be happy.

### **Neptune**

There is a planet that adds a mystical tone to our lives. Neptune defies being labeled as part of the physical world. It is our spiritual awareness on one hand and desire to escape from earthly reality on the other. Both are possible!

In mythology, Neptune was Poseidon, god of the oceans. This water god represents the strong emotions that love activates. Do the two of you feel any common ground when it comes to your highest beliefs? If you do, it might be associated with this planet's symbolism.

Faith is a Neptune theme. Neptune's sign and house will point to the ideals and causes you share. Your intuitive insights into one another can also be revealed here. Shadows of Neptune are denial and guilt. Keep these tendencies in check. It will ensure greater clarity and closeness. If you don't, it can feel like you are eating chicken broth with a fork.

Aesthetic interests are another part of Neptune's world. Your shared interests in art and music can come through loud and clear.

You may not really want to define your commitment. It's more fun making up the rules as you go along. This is okay as long as you both agree to the same game. It is wise to accept differences in values. If you don't discount your partner's ideas, life merrily can be lived together.

Devotion to work and efficiency is a focus in your relationship. Making dreams and ideals become pragmatic entities is certainly within the realm of your imaginations. You believe in taking steps toward a vision, while many people are only watchers. Don't doubt yourselves along the way. It's your propensity to see the lack of perfection in what you do. Be sure a revision of a plan does not become so discouraging that it puts a halt to your progress. You are apt to sporadically disagree on how to get a job accomplished. Learn to not be overly sensitive when hearing your partner's opinions. A tip: It does help to stay away from leveling each other's ideas in a disparaging way.

A mutual interest in maintaining your mental and physical health is probable. You can learn from each other about diet and exercise. You will appreciate encouragement for developing your skills. It is an area where your belief in one another benefits you both. The saying "what is good for one is good for all" works in your companionship.

In the real one, you can fuel each other's fortitude to see limitations as opportunities to shine through, rather than as dark clouds.

## **Pluto**

Last, but not least, is a planet of mystery and intrigue, Pluto. You may get a message or two in this section about your shared psychological intensity. Pluto's sign and house point to our drives for power, passion and financial gain. A desire to get to know each other on the deepest of levels can be a Pluto theme. We must let go of a part of ourselves to be in a relationship. This scares some people and seems like a fair deal to others. What we cannot face as individuals sometimes will be brought to the surface in our interactions with a partner. Pluto's shadows center around jealousy and possessiveness. This planet teaches us that letting go and trusting one another are rewarding paths. Facing the tests of Pluto together is the breakfast of champions.

They are an indication it is time to talk. Listen carefully. Don't panic. You don't need to have all of life's answers in your pocket or up your sleeve. Spend time together. with having a place that offers refuge. Just don't become hermits. Go out and have fun!

### **Midheaven**

Just as the Ascendant was described as a sign serving a special purpose, there is a sign referred to as the Midheaven, with a special mission of its own. This is the sign at the beginning of the 10th house of a chart. A palm reader can interpret the career line embedded in your hand. Think of the Midheaven or 10th house sign as a type of career line in your chart. How you two conduct business in the world and your work interests are shown here.

Showing faith in each other's most cherished aims makes you almost indispensable partners. Divine discontent can show you having trouble being pleased with the things that come easy. Your intuitive natures can lead you to paths that offer success. People can be moved by the emotion you put into a plan. Some reality testing will be needed to better define a strategy. Taking small steps toward an objective will take you to the bigger ones. An attraction to alternative professions is possible. Your compassion and the special way you care can touch others.

## **Part Three: Planetary Aspects**

It's time now to mention another technical side of your report. (If you don't like technical explanations, skip right to the Aspect Interpretations). You have already been introduced to the ten planets. Certain planetary pairs in your chart have a special relationship to one another due to particular angular distances separating them, known as aspects. You could almost say the two planets in an aspect travel and interact together along the same circuit. The following aspect interpretations or descriptions will be listed under five types. Two are known as the soft aspects: the sextile (60 degrees) and trine (120 degrees). These two aspects generally point to more gentle themes found in your relationship. They indicate a lower voltage of electricity and produce less friction. The planets involved in a trine or sextile are more likely to be areas where you flow together without much effort.

The more hard or intense aspects are the conjunction (0 degrees), square (90 degrees) and opposition (180 degrees). They require our understanding and will point to key ways the two of you must communicate and negotiate. Planets that are part of an intense aspect will show how you energize one another. These higher voltage aspects don't mean you want to avoid them, but more so to develop a true understanding of how to use this energy constructively. "Soft" does not mean good and "intense" does not imply bad. It is often the more intense aspects that deepen the bond of a partnership. The interpretation of any planetary aspect depends greatly on the symbolism of the two planets forming an aspect.

It might be helpful to keep some key words in mind for the aspects. The sextile is a promise of Excitement and Eagerness. The planets in this aspect give clues how your energies support one another. The trine is a special Harmony shown by two planets. There is often positive regard for one another that comes spontaneously. We expect good things to be delivered in the trine.

The conjunction is where two planets are joined at the hip. There is a Fusion or powerful blending of these two energies. The square can reveal where you will encounter Friction in your relationship. Pay special attention to these aspects, as they are opportunities for growth as much as discord. The opposition requires a Balancing act. It is similar to a seesaw. Each of you may find yourselves taking turns in acting out one planet or the other.

It might be helpful to refer to Parts One and Two to refresh your memory about the meaning of the Planets, Ascendant and Midheaven, as you read the aspects that follow. Remember that it is usually the more intense aspects that stretch us the most. The more positively you use these challenging planetary combinations the greater will be your understanding of each other.

Note that a planet might be involved in several different aspects. In other words, the planet is interfacing its energies with numerous other planets (or even with the Ascendant or Midheaven). A "heavily aspected planet" plays a key role in your relating to each other.
